**RE: Formal Opposition to Proposed 5-Story, 31-Unit Multi-Family Residential Project on 0.5 Acres at San Elijo Road / Town Center — Unmitigated Public Safety, Evacuation Egress, and Catastrophic Risk Aggregation**

Dear Chair and Members of the Planning Commission,

I am writing to express my rigorous opposition to the proposed 5-story, 31-unit multi-family condominium development situated on a 0.5-acre parcel in the core of the San Elijo Hills Town Center.

I write not only as a homeowner whose family would be directly impacted, but as an Underwriter whose profession is the quantitative and qualitative analysis of catastrophic risk. In my career, my core mandate is to evaluate compounding hazards, aggregate exposure, infrastructure resilience, and probability-of-loss scenarios. In commercial property and casualty underwriting, approving high-density accumulation within severely constrained hazard zones is recognized as a fundamental systemic failure. While expanding affordable housing is an important regional objective, siting this extreme density (62 dwelling units per acre) at our community's sole geographic funnel point introduces severe, unhedged operational risk to human life.

From a professional risk analysis framework, this proposed development presents several critical, unmitigated vulnerabilities:

## **1. Invalidation of Static Commuter Models vs. Peak Dynamic Egress**

In risk modeling, relying on average daily conditions to predict catastrophic outcomes is a fatal error. Traditional traffic impact assessments evaluate normalized Level of Service (LOS) distributed across peak morning and evening hours. Wildfire evacuations do not follow normal distribution curves; they generate an instantaneous demand spike where 100% of the population attempts to mobilize within a 30- to 60-minute window.

The empirical baseline for this network is already established. During the 2014 Cocos Fire, mandatory evacuation orders triggered immediate, total corridor failure, trapping residents in 2- to 3-hour gridlock over a 2.5-mile stretch of San Elijo Road. Placing 31 high-density units directly at the central roundabout dumps additional high-turn traffic directly into the primary

arterial choke point at the exact moment capacity collapses. As an underwriter, I can state unequivocally that adding high-density egress load to a corridor with a demonstrated 100% historical failure rate during peak loss events violates standard principles of hazard mitigation.

## **2. Concentration of Vulnerability and Dependent Population Friction**

Underwriting risk models heavily factor dependent populations—specifically individuals who cannot self-evacuate. San Elijo Hills already houses an extraordinarily high concentration of minors, with over 3,300 students clustered during the day at San Elijo Elementary, San Elijo Middle, and Double Peak School.

During an emerging wildfire event, a parent's first operational response is not to exit down the hill, but to travel counter-directional or lateral across San Elijo Road toward the school campuses. Adding high-density residential conflict points directly in the Town Center intersection exacerbates secondary vehicle conflict, paralyzing the very intersection through which both family reunifications and subsequent outward evacuations must pass.

## **3. Apparatus Friction and Competing Life-Safety Ingress**

A 5-story structure on a constrained half-acre footprint significantly alters the municipal risk profile. A mid-rise structure of this height requires substantial staging clearance for heavy aerial ladder apparatus and structural protection engines.

Because the 0.5-acre parcel lacks the operational setback necessary for self-contained, on-site staging, firefighting apparatus will inevitably be forced to occupy the public right-of-way on San Elijo Road. In an active wildland-urban interface (WUI) event, this creates immediate apparatus-evacuee friction: incoming emergency units must compete for the exact two-to-four-lane corridor that over 10,000 existing hillside residents need to escape. Underwriting standards classify this as a negative compound dependency, where emergency response capacity directly cannibalizes evacuation throughput.

## **4. Insurability and CEQA Public Safety Compliance**

Beyond physical safety, unmitigated density in Very High Fire Hazard Severity Zones (VHFHSZ) carries severe economic externalities. The California property insurance market is already in a state of unprecedented contraction precisely because carriers are re-evaluating aggregate WUI exposure and community egress limitations. Approving high-density projects in non-redundant, single-spine corridors signals to underwriters and rating bureaus that local land-use decisions are actively compounding community vulnerability, further jeopardizing the availability and affordability of insurance coverage for all surrounding homeowners.

Under the California Environmental Quality Act (CEQA Guidelines Appendix G, Section XX), a lead agency must analyze whether a project will impair an adopted emergency response or evacuation plan, or expose residents to significant wildfire risk. Relying on baseline commuter capacity studies rather than dynamic, wildfire-specific clearance time modeling fails both CEQA's legal standards and prudent risk governance.

## **Conclusion and Call to Action**

A risk manager's responsibility is to intervene before an identified vulnerability manifests as a catastrophic loss. The physical constraints of San Elijo Hills are fixed by geography; the egress capacity cannot be expanded to match an unconstrained densification of the Town Center.

I respectfully urge the Planning Commission to **deny this application**, require an independent, dynamic Wildfire Evacuation Clearance Time Analysis before considering any high-density rezone of this parcel, and insist that development remain within densities that our emergency infrastructure can demonstrably protect.

Respectfully submitted,

Shideh Rad MBA, AU, AINS

Executive Underwriter, Risk Analysis, homeowner in San Elijo Hills

**Subject:** Fw: Plan for Ambient Deveopment  
**Date:** Sunday, October 4, 2026 7:42:50 AM

---

You don't often get email from [REDACTED] [Learn why this is important](#)

**CAUTION:** This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

To: Chris Garcia  
Senior Planner San Marcos, CA  
San Marcos Planning Commission

Dear Mr. Garcia,

As a resident of Westcliffe Subdivision I oppose the approval of the Ambient plan to develop 31 apartments (5 story building) on San Elijo Road. I believe this plan has only 21 parking spaces.

I urge you and the commission deny approval for the safety of those who live and work in the San Elijo Area and surrounding areas.

This apartment would be close to the intersection of Schoolhouse Way and San Elijo Road. I am concerned about safe evacuation for fire for residents of High Bluff condominiums (240 condos) and Westcliffe (107 homes). Ultimately, residents evacuate out the back of Westcliffe down Lighthouse and end up back on San Elijo Road. My understanding is this was a long time in a previous evacuation.

The parking on Schoolhouse Way has become congested with parents parking for the school drop-off and events, and the large number of children and adults using the park and playing fields. If there is an emergency we will also have the issue of desperate parents trying to pick-up children from the San Elijo Elementary School (778 to 834 students, 36 teachers) and San Elijo Middle School 1140-1198 Students and 51 Teachers). There will also be E-bikes. In the event of fire no one is supposed to be on the trails as noted by fire personnel for escape.

In summary, this is not the place for this building: It presents a increased safety risk to safe fire evacuation and potentially puts residents at risk; increased risks to pedestrians due to unsafe parking - does not provide adequate parking; there are safety concerns

about the building set-back; Egress concerns for residents on San Elijo road; finally rooftop access to overlook playing courts and fields of the schools and parks does not seem a good idea.

**Subject:** Public Comment: San Elijo Hills Town Center Multifamily (SDP24-0009)  
**Date:** Sunday, October 4, 2026 5:15:17 PM  
**Attachments:** [image.png](#)

Some people who received this message don't often get email from [REDACTED]. [Learn why this is important](#)

**CAUTION:** This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Please accept this as our request that the planning commission **DOES NOT** approve the permit for Multifamily (SDP24-0009 / TSM26-0001) due to numerous safety concerns outlined below

Please also see the attached photo of the traffic signs on the street that border both sides of the project on San Elijo road which will further limit the parking on the street that the builder proposes he can leverage (Given the plan does not include enough on-site

parking for the site). This will only increase the traffic safety issue that the building will create.

**TO:**

City of San Marcos Planning Division  
Attn: Project Planner for SDP24-0009 / TSM26-0001  
1 Civic Center Drive  
San Marcos, CA 92069  
*Via Email and Public Record Submission*

**RE: Public Comment and Notice of Substantial Evidence**

**Project Titles:** San Elijo Hills Town Center Multifamily (SDP24-0009 / TSM26-0001)

**Location:** Town Center Pad F (Triangular Parcel Adjacent to San Elijo Road / School Entrance)

To the San Marcos Planning Division and City Council:

Please accept this formal public comment regarding the proposed San Elijo Hills Town Center Multifamily project (**SDP24-0009 / TSM26-0001**). While the community recognizes the State of California's housing mandates, the City of San Marcos retains explicit legal authority—and a binding fiduciary duty—to protect public safety.

This letter submits into the administrative record **substantial evidence** that the developer's requested zoning waivers and environmental exemptions create unmitigatable, severe threats to school child pedestrian safety. We formally request that the City exercise its remaining legal leverage under **California Government Code § 65915** and **Public Resources Code § 21166** to deny the dangerous setback waiver and mandate a Subsequent Environmental Impact Report (EIR).

---

**I. STATUTORY GROUND FOR DENIAL: Government Code § 65915(d)(1)(B)**

The developer seeks a massive deviation from local zoning controls under the State Density Bonus Law, requesting a height increase to five stories and a radical reduction of the street setback from the master-planned **10 feet down to just 18 inches**.

Under **Government Code Section 65915(d)(1)(B)**, the City of San Marcos is legally empowered, and obligated, to deny a requested waiver or concession if it makes a specific, written finding based on substantial evidence that the waiver:

*“...would have a specific, adverse impact, as defined in paragraph (2) of subdivision (d) of Section 65589.5, upon public health and safety... for which there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact.”*

**The Evidence of Specific Adverse Safety Impact:**

- **Sight-Line Obstructions at School Crossings:** Placing a massive 5-story physical structure a mere 1.5 feet (18 inches) from the property line along a high-volume, 4-lane arterial road (San Elijo Road) creates an immediate blind spot. It blocks the critical sight-lines of school buses, turning parents, and automated traffic safety systems directly adjacent to the main entrance of San Elijo Middle School and nearby San Elijo Elementary.
- **Immediate Child Pedestrian Hazard:** The peak-hour foot traffic at this exact location consists of hundreds of minor children. An 18-inch setback forces the structural mass of a 5-story building directly against the sidewalk corridor. This leaves zero physical buffer zone or "refuge area" for young pedestrians if a vehicle veers off the 4-lane road, or if crowd crushing occurs during school dismissal peaks.
- **No Feasible Method to Mitigate Outside of Denial:** There is no engineering mechanism, flashing light, or signage that can mitigate the physical reality of a 5-story wall sitting 18 inches from an active school-zone sidewalk.

**Requested Action:** The City must invoke § 65915(d)(1)(B) to **deny the 18-inch setback waiver**, forcing the developer to pull the building envelope back to the legally established 10-foot master plan setback line to preserve basic pedestrian survival space.

---

## II. ENVIRONMENTAL GROUND FOR SUBSEQUENT REVIEW: Public Resources Code § 21166

The developer intends to "tier" this project's environmental clearance off the original San Elijo Hills Master Plan EIR. However, the reliance on a master environmental document drafted over 20 years ago is a severe violation of the California Environmental Quality Act (CEQA) given today's realities.

Under **Public Resources Code Section 21166** and **CEQA Guidelines Section 15162**, a lead agency *must* require a Subsequent or Supplemental EIR if:

*(1) Substantial changes are proposed in the project... or (2) Substantial changes occur with respect to the circumstances under which the project is being undertaken which will require major revisions in the environmental impact report.*

### **The Evidence of Changed Circumstances & Project Deviations:**

- **Unstudied Structural Deviations:** The original Master Plan EIR never contemplated, analyzed, or modeled the localized environmental, microclimate, or wind-tunnel safety impacts of a five-story vertical structure positioned on this restrictive, triangular Pad F footprint.
- **Complete Overhaul of Traffic Baselines:** The baseline traffic counts, school enrollment figures, and pedestrian congestion data from 20+ years ago bear zero statistical relevance to current conditions. Peak school-hour drops and pick-ups currently experience severe gridlock. Forcing multifamily residential ingress/egress onto this specific, bottlenecked triangle introduces an unstudied traffic safety hazard.
- **Revolutionized Wildfire Evacuation Realities:** San Elijo Hills is a topographically restricted wildfire risk zone relying on narrow evacuation corridors. Regional wildfire evacuation models have been completely overhauled post-2020. The addition of dense vertical housing at a primary school-zone bottleneck creates a severe risk of gridlock during a mass evacuation order—a changed circumstance that a 20-year-old EIR could not legally foresee.

**Requested Action:** Because the "circumstances under which the project is being undertaken" have fundamentally changed, the City cannot legally issue a Notice of Exemption or a simple Negative Declaration. The City must command a **Subsequent EIR** under PRC § 21166 to model today's real-time traffic data, school pedestrian flows, and evacuation capacities.

---

### **III. DISQUALIFICATION OF CATEGORICAL INFILL EXEMPTIONS: CEQA Guidelines § 15300.2(c)**

If city staff or the developer attempt to fast-track this project via a Class 32 Urban Infill Categorical Exemption (CEQA Guidelines § 15332), we submit that the project is completely disqualified under **CEQA Guidelines Section 15300.2(c) (The Unusual Circumstances Exception)**.

- **The Unusual Circumstance:** The physical geometry of the site (a tiny, sharp triangular pad), squeezed directly between a high-speed 4-lane arterial road and a

highly sensitive receptor zone (the entrance to two active public schools), constitutes an undeniable "unusual circumstance" that differentiates it from standard urban infill lots.

- **The Environment Impact:** The proximity to young children and school transport vehicles creates a reasonable possibility of a significant safety effect, legally triggering the exception and invalidating any shortcut categorical exemption.

## Conclusion

The community urges the Planning Division and City Council to utilize its remaining statutory powers. We support the creation of legally compliant housing, but we refuse to compromise the physical safety of children.

We formally request that the City:

1. Make explicit written findings under **Gov. Code § 65915(d)(1)(B)** to **deny the setback concession**.
2. Issue a determination under **PRC § 21166** requiring a full **Subsequent EIR** to address modern school traffic, pedestrian safety, and wildfire evacuation data.

Please include this letter and all attached citizen traffic logs/photographs into the permanent administrative record for SDP24-0009 and TSM26-0001.

Sincerely,

Timothy and Elyzabeth Glynn

**Subject:** Apartment complex on San Elijo Rd.  
**To:** [REDACTED] <[REDACTED]>

I oppose any apartment complex on San Elijo Rd.

The area is too small for any buildings. Traffic is horrendous in that area now. The cars act like it is a speedway. With the School on the corner and all the traffic, increasing the potential for more accidents is waiting to happen.. We have had a few children hit already in that area. We don;t need more traffic, we need less. I would like to see the speed limit reduced to 25, npt. 35

Getting out of WestCliffe is going to be impossible. Emergency vehicles would not be able to accommodate the traffic. How would those apts exit and enter their area?

The property owner only wants money, he doesn't care about safety.

Please count me as an absolute NO vote.

All My Best,

Mary Ann Hackney

Dear Members of the San Marcos Planning Commission,

I am writing to strongly oppose the proposed five-story, 31-unit condominium building (SDP24-0009) on the 0.5-acre median along San Elijo Road.

San Elijo Road is one of only two principal evacuation routes for San Elijo Hills, which lies in a Very High Fire Hazard Severity Zone. Adding high-density housing at this convergence point risks creating bottlenecks for evacuation and emergency access. The site is also next to two schools serving roughly 2,000 students, and the plan's 18-inch setback, where 10 feet would normally apply, raises serious sight-distance and pedestrian safety concerns.

The project relies on an environmental review that is more than 25 years old, and no publicly reviewed Fire Protection Plan or current evacuation analysis exists. California's Housing Accountability Act allows denial when a project creates a specific, unmitigable risk to public safety.

I support housing, but not at the cost of this community's long-term safety. Once built and occupied, this project would permanently add residents and vehicles to a corridor that cannot absorb them, both during a wildfire evacuation and in daily traffic. Those lasting effects on public safety cannot be mitigated after the fact.

I respectfully urge the Commission to deny this project.

Sincerely,

Raji Lukkoor

**CAUTION:** This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Planning Department Officials,

I am writing to voice our household's opposition to the proposed condo project on San Elijo Hills Road. That site is grossly unsuited for such a project for several reasons:

--it is not compatible with the master plan housing design of the overall community and degrades the neighborhood atmosphere and feel of the community at large especially central San Elijo Hills Town Square

--it will seriously impact traffic in both directions of San Elijo Road, which further exacerbates already impacted evacuation efforts in the community. We've experienced this twice with past fires in the area.

The community of San Elijo Hills is a hallmark for its community atmosphere. A condo project like this DOES NOT fit in well with this community.

Bottom line, our hearts will be broken if a project like what's currently being proposed goes through. I sincerely hope your expertise will agree with our and many other community members' view of this kind of a project and vote against a proposal such as this.

Respectfully,  
Lia McGuinness

**Subject:** Public Comment — Item 2 (TMP-2397; SDP24-0009/TSM26-0001), Oct 5 Hearing  
**Date:** Saturday, October 3, 2026 2:59:08 PM

---

**CAUTION:** This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Chair and Members of the Planning Commission,

I live within one mile of the proposed project site and take my two children to San Elijo Elementary School nearby every day. I am writing on Item 2 of the October 5 agenda, the San Elijo Hills Town Center Multifamily project (SDP24-0009, TSM26-0001): a 31-unit, five-story condominium building on the half-acre median parcel at the San Elijo Road split between Schoolhouse Way and Elfin Forest Road.

I respectfully ask the Commission to continue this item until a project-specific Fire Protection Plan and evacuation analysis have been completed and made available for public review — before the entitlement decision, not deferred to the permitting stage afterward.

The staff report itself shows why this is necessary. It states that no project-specific evacuation plan or study was prepared for this project, and that the Community Wildfire Protection Plans it cites "do not establish how long evacuation would take or quantify additional evacuation demand from this development" (Staff Report, TMP-2397). The only other evacuation evidence in the record is a one-line summary from the January 2025 workshop — "Per the Fire Marshall... this development does not impact existing evacuation conditions" (Attachment I) — which addresses only whether conditions change, not whether existing evacuation capacity on San Elijo Road is adequate for the added density in a Very High Fire Hazard Severity Zone.

As a parent who drives these roads with my children, I am asking the Commission to make this decision on a complete safety record. A continuance is squarely within the Commission's authority under the Density Bonus Law and the Housing Accountability Act, and it is the only way the eventual decision — whichever way it goes — rests on evidence (and peace of mind for all).

If the Commission is not inclined to continue the item, I recommend denial based on the unresolved public-safety questions above.

Thank you for your service to the community.

Sincerely,  
Brian Rumao

In anticipation of Monday's meeting, attached are the updated 120 public comments sent in by citizens opposed to the High-Density Condo Proposal in the Town Center. This is in addition to the hundreds of emails and letters that have been shared. We would appreciate if this list is available for the Planning Commission to review and made part of the public record.

Thank you!

Jamie

|-------------------|--------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Dana Paris        | 10/13/24     | "This goes against the master plan that limits multi unit buildings to 3 floors. This will tower over the town center. Building 31 units and adding only 20 parking spaces isn't nearly enough. Very poorly planned design for this tiny 0.5 acre parcel in the median of an overcrowded roadway."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Irina Ivanova     | 10/13/24     | "Impractical, disruptive, aesthetically horrendous, and potentially dangerous in an emergency situation, this project uses a loophole in our civic infrastructure laws to perch itself in about the noisiest, least conducive to living spot in the community. This is driven by greed alone, without regard for the current residents and future occupants of the building. The previous proposed project was going to put children in this spot, and now they want to put families (stack them in chicken coops right on top of each other, 31 units with hardly any parking in what is a tiny little lot that was previously considered for a two story 3000sqf building--also with little parking. This is how ridiculous the evolution of Ambient's ROI efforts are getting." |
| Amy Peters        | 10/13/24     | "Traffic, safety, parking concerns, and more."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Kelly Lenahan     | 10/13/24     | "The added traffic will create an impossible evacuation route. It is absurd to think a 5 story townhome complex will be benefit our community in any possible way."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Stephen Zoller    | 10/14/24     | "How about a community pool instead"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| <b>Elise Fanney</b>   | 10/16/24 | "There is not enough room for this building!! Not enough parking and we already have tons of traffic and it's also a fire risk since we only have one way in and out of town. Please choose another area this would ruin our small town feel and that's why we moved here. Please please find a different location. Thank you!"                                                                                                                                                                                                                                                                         |
| <b>Erin Rasmussen</b> | 10/16/24 | "We already have difficulty finding parking in this area to take our daughter to the park, and we already sit in tons of traffic in this area getting home from work."                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Rebecca Culjat</b> | 10/16/24 | "Traffic is already horrible in our community and our schools are overcrowded. It's not safe with one street in and out in a high fire zone to keep building houses."                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Kris Scuteri</b>   | 10/16/24 | "From the developers website - "Development that thoughtfully considers the surrounding environment." Did anyone look at the map? It's a dinky triangle. Someone please explain how plopping a too tall, too crammed building into a dinky triangle aligns with their own statement."                                                                                                                                                                                                                                                                                                                   |
| <b>Annie Trembl</b>   | 10/16/24 | "I don't want the 5 story building. This place is too packed with people. What if there is a fire. We won't get out Anne Trembl"                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Marla T</b>        | 10/16/24 | "I'm opposed. Location is bad for this use and it's aesthetically incompatible. But let's be honest. All this energy MUST be directed at Sacramento, not the local government. The City of San Marcos has no other option but to comply or it will be sued by CA AG Bonta. He's already sued Huntington Beach for non-compliance. It's the Democrats in Sacramento, led by Sen. Scott Weiner who passed this density housing bonus bill. The definition of insanity is doing the same thing over and over, expecting direct results. So keep voting for same thing in Sacramento and see what you get." |
| <b>Samin Beringer</b> | 10/16/24 | "This project is going to be detrimental to our community."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Sarah Telahun</b>  | 10/16/24 | "5 stories is too high. It needs to match what we have in the town center."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Scott Thstcher</b> | 10/16/24 | "It is not safe to put a five story building in the middle of the town where there is no ability to park. Cars will be coming out of their garages into oncoming traffic."                                                                                                                                                                                                                                                                                                                                                                                                                              |

|                        |          | <p>"I live in the condos this proposed building will be overlooking and I am on the HOA board for our 12 units. (SEH 12). Our condos would also share parking, though I understand this proposed building will have base floor parking. However, the parking proposed for this new building would only cover about one vehicle per unit, where would the other people park when on average at least 60% will be double occupancy &amp; most Californians own a vehicle? More Concerns: Our 12 units already have major issues with parking and we each have a 2-car garage. 1) Random people park in the little outside space we have 2) Since we sit in the center divide, there is street parking BUT cars not only speed up and down both sides of San Elijo Rd, there isn't that many spots on our side of the street to accommodate our cars. Most occupants here have small children and it is not safe unloading children and groceries by the busy street, 3) People use our condo's street as a throughway to get between both one way roads, nine out of ten times they speed through putting our families at risk, 4) TRAFFIC is horrendous, I have witnessed car accidents, emergency vehicles delayed because people are jammed in (limited mobility with one way streets), &amp; have literally almost been hit by cars in the crosswalk when the crosswalk was green, witnessed verbal arguments between cars because of their impatience with the traffic. Our 12 units have a 360 view of all this, all day!! I work from home 80% of the time so I walk my dogs morning, noon, &amp; evening, so I rarely miss a beat around here. Adding this massive building with so many units will amplify traffic &amp; parking issues and drastically increase safety concerns. I speak on behalf of most of the SEH 12 homeowners we do NOT support this proposed project."</p> |

| <b>Patricia Arthur</b> | 10/16/24 | <p>"Hello Chris, My name is Patricia Arthur. I am a home owner in San Elijo Hills. I have received the Notice of Application for the building of apartments in SEHs. I just tried to call you, but got your voice mail, so thought I would send you an email as well to express my concerns.</p> <p>I have read the proposal and this is the most ridiculous thing I have ever heard! Almost worse than the preschool idea. Greedy developers are trying to squeeze as much as they can from San Elijo Hills. But those of us who live here realize we are already maxed out! Traffic is horrific. We have become a commuter route with people racing through our community daily. When I asked the Sheriff's Dept. to have a frequent presence here to ticket the speeders, they told me they do not have the resources to do so. I have lived in SEHs for 20 years and I can tell you the quality of life in our community has decreased significantly due to greedy developers wanting to cover every inch of SEHs with housing. That small piece of land is not big enough for any housing!!! That small piece of land should be planted with pretty trees and plants, maybe some benches to sit on and that's it! The proposal says there will be 31 apartments and 31 parking spaces, some of which are to be on San Elijo Road. There is no room on San Elijo Road for parking! Developers have already made our town center parking very difficult due to the two large condo developments they built there. With 31 apartments don't you think there are likely to be twice that number of cars???? This makes no sense! Please stop ruining our community! If there are to be public hearings to discuss this proposal I would like to be informed of the date, time and location so that I can express my views in person. These also happen to be the views of every SEHs resident I know and that is a lot of people. Sincerely, Patricia Arthur 1024 Brightwood Drive San Marcos, 92078"</p> |
| <b>Michele Isaac</b>   | 10/16/24 | "The city of San Marcos does not need anymore housing until they build a public or private high school."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Jackie Stewart</b>  | 10/16/24 | "This is a ridiculous location for a 5 story apartment complex. It will cause more traffic, and be and be an eye sore. Seems like a fire hazard for evacuees as well."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Danielle Cohan</b>  | 10/17/24 | "The last thing San Elijo Hills needs is more people crammed into the already overpopulated area. Traffic is already a nightmare, and with only San Elijo Rd and Elfin Forrest Rd. as escape routes there is serious concern among those of us who actually live here when it comes to our ability to evacuate in an emergency. The 2014 fires where a perfect example of how it already takes hours to evacuate the area due to the number of people and lack of routes that lead out of this community. Stop building housing before infrastructure."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Paul Hedquist</b>   | 10/17/24 | "Let's go Brandon!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Mark Roybal</b>     | 10/17/24 | "Too much congestion in SEH already. Adding this many units is going to create even less parking and more traffic."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Bjorn Romberg</b>   | 10/17/24 | "I agree with all the stated reasons in this petition."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| <b>Lori Joyce</b>           | 10/17/24 | "San Elijo is a planned community. The planners did a great job and the community is lovely. The proposed apartments do not fit with the plan and will literally stick out like a sore thumb. As to someone's statement that San Marcos must put up these units, that may be true, but they can certainly find a better place for the people who will be renting these apartments for the reasons stated in others comments"                                                                                                                     |
| <b>Jann De La Cruz</b>      | 10/18/24 | "The traffic in and around the village is already terrible. Imagine how bad it will be with construction vehicles and crews thrown into the mix."                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Charmaine Harris</b>     | 10/23/24 | "I am concerned about the safety and traffic congestion that will have a negative impact on the community. There will also be overcrowded schools and resources that are already stretched to the limit."                                                                                                                                                                                                                                                                                                                                        |
| <b>Spain McMillen</b>       | 10/23/24 | "I can't imagine a worst place to dramatically increase density and traffic - while destroying a precious view of our own community. The intersection of San Elijo Rd and Schoolhouse Way sees the majority of our schoolchildren's foot traffic crossed by morning and afternoon commutes. There's no way this won't be negatively impacted by stacking so many units right atop this intersection. I have no problem with opening and expanding our wonderful neighborhood to new development - but we can't be blind to poor urban planning." |
| <b>Teresa Inglis</b>        | 10/23/24 | "Having lived here for over 20 years, there is much too much traffic, congestion and speeding already - it's terrible several times a day. I witness it each and every day. Aside from residents it is a 'pass-thru'!"                                                                                                                                                                                                                                                                                                                           |
| <b>Jay Valen</b>            | 10/23/24 | "Incredible that someone would try and 'squeeze' in something like this! We already have major traffic and speeding problems. Much of this is due to making SEH a pass through for non-residents. This was NOT how it was when we first moved here."                                                                                                                                                                                                                                                                                             |
| <b>Richard Waks</b>         | 10/23/24 | "Opposed. Ridiculously tiny place to try and enter/exit an apartment building when the road splits right there and traffic is always present and moving rapidly. The first accident would likely be day(s) after opening. Cramming in a 31 unit building here runs counter to all the community SHOULD be about...not only revenue. Businesses have already left downtown SEH due to the prices, and others can't afford to come in. Poor planning is destroying the city."                                                                      |
| <b>Eileen Zirpolo-Kisco</b> | 10/25/24 | "This is not an acceptable location for this building. No other building in the town is over 3 stories and quite honestly it was not part of the SEH Master Plan. This type of building would be best suited for Twin Oaks Valley road, not in the middle of an already congested area. This is a deceiving proposal for the residents of SEH who purchased homes knowing what the Master plan had identified for development. Seems like a typical 'bait and switch'."                                                                          |
| <b>Kathleen Davis</b>       | 10/25/24 | "I agree with the reasons they don't want this apartment building in that location"                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Jann De La Cruz</b>      | 10/29/24 | "Traffic is already congested through this corridor several times a day. I recently had an experience when traffic was heavy and then a fire truck turned out for a call. He was telling us all to move to the right, but there was nowhere for us to move to!"                                                                                                                                                                                                                                                                                  |
| <b>Craig Rice</b>           | 11/8/24  | "Too large and will impact traffic that is already tough."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

|                          |          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| <b>Michael Burns</b>     | 1/23/25  | "I'm a resident. It's crowded and dangerous as is. Very congested in this area."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Ryan Mabie</b>        | 1/23/25  | "Horrible idea due to the location. I've been in real estate over 20 years and I thought this was a joke reading it. Make the area Green space or extra parking."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Jeff Welch</b>        | 1/23/25  | "The location and space for that number of apartments is beyond unreasonable. The ingress/egress of traffic on a curve will present significant danger. Combine that with the proximity to the school and number of pedestrians and it is a recipe for ongoing disaster."                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Christine Kircher</b> | 1/23/25  | "I'm a SEH homeowner and mother who used this road multiple times a day for drop off/pick up and am very concerned with the increased traffic on an already busy area. There have been accidents involving kids, some with life threatening injuries within the last couple years. It's also concerning that the top units would have direct oversight into the middle school with the incidents we are hearing on the news across the nation. I'm not opposed to developing the area but this is definitely not the best for the community."                                                                                                                                                                                    |
| <b>Donald De Camare</b>  | 1/23/25  | "The Village Square at San Elijo is already a disaster twice a day when school starts and stops. This will make it that much worse. Also, evacuation in the event of fire has been proved to be impossible here already based on the last attempted evac."                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Catherine Hindle</b>  | 1/23/25  | "I am an owner in San Elijo and do not agree with a 5 story building being built in the busiest location of our town."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Steve Schick</b>      | 1/23/25  | "Traffic is already bad along San Elijo Road, which has become a major thoroughfare. Additional housing units adds to the load in a place that has a concentration of school traffic and an intersection at Schoolhouse Way that can be restricted due to a no-right-turn signal when cross walk is activated, even on a green light, giving cars a 10 second window to turn right between the signal turning from yellow to red. Furthermore, the City has not improved the evacuation capacity or plan for the area since the last evacuation while continuing to add residents, making a bad situation worse. This ill-conceived plan to add a big housing structure to a small strip of roadway medium simply defies logic." |
| <b>Lilia Koriazova</b>   | 1/23/25  | "The urban infrastructure in this area is not sufficient to support this new development. The community is already too crowded for the roads and it is not safe, particularly in an emergency situation such as a need to escape from a fire or any other natural disaster"                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>Ed Wong</b>           | 1/23/25  | "San Elijo road is only way to get in and out now. It will be more traffic specifically on build on this road."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Scott Cappiello</b>   | 1/23/25  | "The proposed project is too inconsistent with the documented guidelines for the community: too tall, too dense. There are 3-story residential spaces in the same block -- a less-dense project more consistent with those residences could be acceptable."                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

|                        |         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| <b>Joan Hawkins</b>    | 1/23/25 | "The parking is horribly insufficient for units in that location. The city must change the parking around the square to 4 hour parking or less to allow the businesses to have spaces for the customers doing business in the area. Also, the traffic in that corridor is all ready crazy congested- how is adding more density safe for the community?"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Michel Langis</b>   | 1/23/25 | "Don't want this apartment complex in the middle of the neighborhood."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Sonja Behling</b>   | 1/24/25 | "This project cannot move forward as it is utterly irresponsible. I, and so many others, use this road to bring our young children to school and this road is extremely congested due to there being 3 schools on this road. We simply cannot add another complex and more people onto this road. This is a major liability--when another natural disaster strikes and evacuation is needed, we won't be able to get people out in time. To enlighten you since you probably aren't aware of the demographics here, most everyone here has young children and babies (including some with medical conditions and disabilities)....so evacuating quickly in case of fire or something similar is critical. We cannot safely do so if there are more people and cars. The infrastructure is simply not here. Nobody wants such a complex here...we have too many homes here as it is." |
| <b>Leah Beltran</b>    | 1/24/25 | "As a resident of San Elijo for 20 years, this has to be the most irresponsible project idea someone has presented. Where is the competency and common sense? This is a SMALL strip of land, a median really, in between the main road. Extremely dangerous to add more housing and cars and people here. I have loved our city and our leadership, so I hope they see this does NOT make sense at all in this spot."                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Jay Donnell</b>     | 1/24/25 | "Why must every sliver of land get developed?! And where the hell are all the use people going to park since there no room for a 50+ car lot. This project smells fishy, especially if the dunderheads at Ambient are not being responsive."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>APRIL HAWTHORNE</b> | 1/24/25 | "I voted "NO" for this building in San Elijo! I disagreed!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Kelly Smith</b>     | 1/24/25 | "We do not need more apartments in our beautiful town."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Pamela Hatala</b>   | 1/24/25 | "That lot is so small. Why not make it into a peaceful strolling/meditation area or build a 2-story parking structure since parking is at a premium with the Town Center restaurants and school drop-off/pickup?"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Alexa Pallas</b>    | 1/24/25 | "Project does not adhere to maximum building heights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| <b>James Ramsey</b>    | 1/25/25 | <p>"It is utterly ridiculous to even contemplate jamming a (28) unit apartment building onto .5 acres....With ZERO room for parking!!?? We shouldn't even be having this discussion, and it begs to question who has been overseeing these greedy developer's ideas!!?? They can try and bend all the local/state legislation to fit thier desired endstate, but all of those ideas are subject to scrutiny. How did they even achieve control over these areas in the community in the first place....and how many more "Projects" are they cooking up in our area....is this round one of more problems like this to follow? Ask these developers, would they live under these conditions? I guarantee you they would not. We must not forget how difficulties created living in cramped conditions.....it will be a struggle to simply park the occupant's vehicles on the street. What about if they have guests just for starters. This absurd project is going clog the streets with vehicles, restricting traffic flow, and creating unsafe conditions along the sidewalks. And what about the safety of any children that they may have in these units and how they will be subject to fast moving traffic flowing through the community inches away from their front doors. That little odd shaped plot of land could be turned into several different things to include a nice park type area for people to enjoy as we walk throughout the San Elijo Hills village area. Let's put a stop to these outrageous and irresponsible ideas. Stop caving into to these idiots who think that stuffing a (28) unit apartment building onto .5 acres is a good idea and has the best interests of OUR community in mind."</p> |
| <b>Arnia Ross</b>      | 1/25/25 | "As a resident with children at school. The roads cannot handle the existing traffic let alone more."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>JP Labarrie</b>     | 1/25/25 | "Totally oppose this."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>David Dew</b>       | 1/26/25 | "This is a terrible idea for our community! Resident since 2003. The congestion and parking is already terrible. Let's make this space an EV charging station."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| <b>sherrill moore</b>  | 3/26/25 | <p>"In addition to its massive size, traffic safety issues, parking issues, pedestrian safety issues, etc., the planner and developer are utilizing the 2005 SEH Environmental Impact/Traffic Study. A current study is necessary. Accepting a 20-year old study to determine the appropriateness of a project of this magnitude and impact on the community is woefully inadequate, and inappropriate. SEH has changed significantly in 20 years and is an open-space enhancement community. The currently designated public parking is utilized by residents, existing business, schools, and for school activities, pre-school activities, sports field activities, community events - removing any on-street parking for the benefit of this developer and this project is taking from the community, not enhancing nor benefiting it and creates safety issues. Additionally, SEH does have 3 apartment complexes to accommodate low-income housing needs. There are so many other concerns and reasons for responsibly rejecting this project."</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| <b>Lisa Kalinske</b>   | 4/7/25  | "I am one of the 12 homeowners in the townhomes next to this proposed building. It is an absolute nightmare, and very, very dangerous for our children going to the schools around us due to how much traffic is already in the area. Adding those apartments and all of the extra traffic will only exaggerate the problem. When I bought my townhouse here, I was told our development was the last of the new builds and all of San Elijo Hills. That there was absolutely zero space to build anything new in downtown San Alejo. Any additional building is taking our beautiful town and turning it into another hectic neighborhood that we simply do not need."                                                                                                                                                              |
| <b>George Allison</b>  | 4/22/25 | "This constant over development will be at the cost of safety and fair access to existing residents. There is already limited street and lot parking around the school, parks and town center areas. Additionally, traffic is already a challenge during normal rush hour times (e.g work rush hour, school beginning and end). And if you have had the experience of being evacuated from SEH during a fire, you know egress is already a major issue."                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Scott Stey</b>      | 4/25/25 | "That area is so congested with pedestrians, school, children, E bikes, and motor vehicles that adding any more traffic would only be endangering the lives of all."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Jeremy Sherman</b>  | 4/27/25 | "Adding an unsafe 5 story eyesore in the median of the singular traffic artery that serves the entirety of SEH is poorly thought out and completely misguided. SEH is the most family oriented community in all of North county. Let's keep it that way!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>Margaret McNeil</b> | 4/28/25 | "We have enough thru traffic in our small Town without this.If emergency should happen there is only one way out.STOP!!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Jim Sciumbato</b>   | 4/28/25 | "It is already very difficult to transit San elijo road twice daily. Why do we want to make that much more difficult????"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>Bob Nenow</b>       | 5/3/25  | "Parking is the problem with this project. The SEH village is at MAX"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Sara Henry</b>      | 5/3/25  | "This is a major safety concern - both for daily commuting and especially during evacuations - and will be a disservice to the students and residents of San Elijo Hills."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Patricia Arthur</b> | 5/7/25  | "The 5 story apartment building that Ambient is trying to build in SEHs Town Center is dangerous and completely irresponsible of them. They are looking at dollar signs and not the safety or quality of life for residents in SEHs. They must be stopped!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Li Ma</b>           | 5/9/25  | "Absolutely disaster to the town. Affecting the the safety of our kids and everyone in town."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Ruben Galvan</b>    | 5/14/25 | "Adding a high-density apartment complex to San Elijo Hills is a fundamentally flawed idea that threatens the character, safety, and infrastructure of the community. San Elijo Hills was thoughtfully designed as a family-oriented, suburban neighborhood with a focus on open space, walkability, and small-town charm. Introducing a large-scale apartment development would overwhelm local roads, schools, and public services, leading to increased traffic congestion, overcrowded classrooms, and strain on emergency resources. It would also erode the area's scenic beauty and lower the overall quality of life for residents who chose San Elijo for its peaceful, low-density environment. This type of development is out of step with the community's values and long-term vision, and should be strongly opposed." |

|                         |         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| <b>Yelena Klinova</b>   | 5/14/25 | "We already have traffic on SEH and building 5 story apartment budling will add to that. Parking is an issue already, we do not want to accumulate more cars, and conjunction in that area."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>APRIL HAWTHORNE</b>  | 5/15/25 | "I have been living here since 2004! I notice more and more traffic as of today! It is too dangerous for the children and people walking around in San Elijo Hills! We don't need to build big BIG apartments near schools, restaurants and stores on San Elijo Road."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| <b>pius padayatti</b>   | 5/15/25 | "Development without environmental consideration happens in many parts of the developed world. Knowing that high-density living is not a clever idea for any housing standards, why would someone do this? Rethink this before too late."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Charmaine Harris</b> | 5/15/25 | "We bought this home in San Elijo when it was in the first phase and we loved it because it was a small community parents and children and neighbors getting together doing activities then all of that changed. There is a lot traffic going through large trucks people speeding . I think that it would be a really big mistake to move forward with this project. We don't need it we don't want it. My personal view is that it's too much of a hazard there are children going to school that have to cross the street. We don't even have enough parking for the cars that are here already. There's enough congestion already putting in apartments would be a big big mistake and will have a negative impact on all our homes that we love so much. And in which that I bought because of all of the good things about San Elijo all of that is going to be spoiled. If you move forward with this project is just bad for all of us. just overall just a bad idea and I don't. I will not support it. San Marcos is just being greedy and trying to steal our peaceful enjoy." |
| <b>Dorina Puma</b>      | 5/16/25 | "We don't need more buildings here, our beautiful city is crowded already. Because of so many cars it is already pretty hard to drive around. One needs to leave earlier to reach on time to a scheduled destination."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Jeanine Norlin</b>   | 5/17/25 | "There are many concerns about this proposed high-density housing complex, but what stands out is the serious evacuation risk. During the 2014 Cocos fire, the gridlock traffic had us trapped and unable to evacuate safely. Placing a large scale residential building directly on the main divide/route would drastically worsen the congestion putting families, schoolchildren, emergency responders, and the entire community at greater risk in the event of another wildfire or natural disaster. Safety must come before development."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>James OSTRANDER</b>  | 5/17/25 | "Just say no ."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| <p><b>Scott Hilmen</b></p> | <p>5/19/25</p> | <p>I have owned a townhome in Morgan's Corner since 2007 before San Elijo Rd connected to Twin Oaks Valley Rd. The development of the community since then has generally worked out very well, but not without issue. I won't belabor or reiterate all of the other concerns here (which I agree with 100%!) but I will add some new thoughts. 1) Traffic flows at a dangerously fast pace down the hill from Double Peak toward Rancho Santa Fe Road at all times, and is even worse during non rush-hour times with vehicles regularly traveling in excess of 50 mph in the 25 mph town center area throughout the day. We have seen countless accidents as a result and its a miracle that none of the kids on ebikes have been hit (that I'm aware of). We have worked with the city to try to install traffic calming measures but had no success because the emergency services that come from the top of the hill need to be able to respond quickly to emergencies and speed humps or other traffic calming measures would prohibit the required ability to respond. Adding a high density project like this will not only exacerbate the problem for the town center but will put the residents, families, children and guests of the proposed project at extreme risk of injury or property damage. How many people will the project accomodate? 40+, 50+, 60+? How many vehicle trips into and out of the project will that be daily? How many pedestrian trips? The risk is too high for the project like this. While the land needs to be used for something, I encourage everyone to think back to before Ambient built the town center project. Ambient or another developer had previously proposed a housing project for that land that was high density, blocked views, didn't make sense for the character of the community, the safety of the community or traffic flows. After immense community pushback the proposed project was originally scrapped and Ambient came forward with the town center that we have today. Visually appealing from all sides was a challenge but they made it happen. Providing services the</p> |

| <b>Ian Nanson</b>   | 5/19/25 | <p>"We purchased in San Elijo Hills for the quiet community and small town atmosphere in 2015...if you look at the rendering of what the apartment complex looks like, as you are coming up the street, that would be the only thing that you can see due to its size. The thought of them putting a 31 unit apartment building on that site is ludicrous. If you have ever driven up the street on either side in the morning and afternoons, you sit in traffic. If there is someone trying to get into their car that is parked on the side of the road, it is very dangerous due to size of street and the proximity to the road. Adding 31 more units which would equate to 62 cars on this area, as most households have 2 vehicles. We are completely apposed to this complex and I hope that it gets rejected."</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Lauren Lanni</b> | 5/21/25 | <p>"Another asinine proposal from city politicians and developers who don't care about our community safety. This is already a dangerous mess, and a pencil tower will be another blight on the town."</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

|                          |         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| <b>Dana Knipper</b>      | 6/7/25  | "This apartment complex not only destroys the aesthetics and design of our community, it will clog/congest our town center area with reduced and inadequate parking but jeopardizes the safety of people walking and traveling in and out of our town. It's already without any additional housing very dangerous to cross the road in that area. This is major thoroughfare to and from the community. More people = more time to evacuate our community. No one wants this apartment complex in our town. It's hideous. And furthermore does not provide any more "affordable" housing to those in need. Who would want to pay a super premium price for a one bedroom box."                                                                                                                      |
| <b>Adrienne Chum</b>     | 6/8/25  | "High-density residential building in a high-traffic location between two schools... If the city wants people to die by fire during an evacuation, I suppose this would be a suitable building to develop. In all seriousness, the two-lane San Elijo Road can't handle this; the community only has two real exit paths that already has gridlock issues. There are much better places to build high-density housing."                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Stephanie Murdoch</b> | 6/13/25 | <del>School drop off and pick up are already a mess. Where would tenants</del><br>enter and exit from in this median area? When we evacuated during the cocos fire (and nearly again today) traffic getting out was an actual nightmare...we thought we would be burned in our car surrounded by fire and traffic was stopped. The road was like a parking lot. If more land is to be developed in this area, the roads, traffic, evacuation plans need to be revised first for the safety of everyone. That should be the priority! Next, if building moves forward, they should consider a height restriction. 2-3 stories max in SEH, it would stick out like an embarrassing sore thumb (greedy and inconsiderate of the surrounding landscape and aesthetic of our beautiful green community)" |
| <b>Lisa Adams</b>        | 5/19/26 | "I hate the idea of housing on that strip. Too congested. 5 stories is way out of scale."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Janice Lee</b>        | 9/23/26 | "Human safety should be number one priority, period. Safe emergency evacuation of this area is already very limited and new construction should not add to the problem."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

Mr. Garcia,

The new development on San Elijo Road is a bad idea. The new building would add a significant number of people and vehicles to an already crowded and very important set of intersections. It would increase traffic, reduce safety, and be an eyesore in our beautiful community. There are obvious evacuation concerns, school safety concerns, pedestrian safety concerns, and obstruction concerns. This is on top of the fact that this new building would be by far the tallest structure in our community with prized views and a quaint atmosphere. It would obstruct traffic, pedestrians, and the beautiful view in an important centralized part of SEH. I believe that allowing this construction to continue as-is would be an awful mistake for our safety, our properties, and our enjoyment. Thank you.

Jeremy, Nadia, and Aya Sherman

I strongly oppose the 28,000 sqft project in the San Elijo median. The project will have an adverse impact to public safety and is therefore a risk to the residents of San Elijo. Profit of the developers should not be put ahead of the safety of the community.

Hello,

I'm writing to vehemently oppose the planned 5 story residential project being planned in the San Elijo Hills Town Square. I am a resident and homeowner here and cannot believe that something so unsafe and poorly planned is being proposed.

Traffic is already difficult in this area. Building this without adequate parking means many cars will be clogging up our townsquare. Our ability to partake in our community events is at stake here.

The most important concern is our ability to evacuate in the event of a fire. This project will negatively impact the ability for residents to get out. We already know that the situation was dire during the 2014 fire event and this building will severely worsen things with all the new cars it will have spilling into our streets.

The aesthetic of the building and the height are also in complete opposition to the vision of our townsquare. It will be a giant eyesore and nothing over 3 stories was ever supposed to go there. Also, putting rooftop decks on a building that looks down into schoolyards should never be allowed.

Please don't let this project move forward. It's poorly planned, unsafe, and no one in our community wants it!

Lindsey Tuthill  
San Elijo Hills resident and homeowner

Ie,PROJECT NO. SDP24-0009, TSM26-0001  
31 Unit Residential Condominium Project

Dear Sirs,

I retired here in San ElijoHills Hills years ago and have seen the Traffic Congestion Worsen near the center of town, especially as the two recent condominium complexes were completed, one right next to the proposed project across from the SanElijo Middle School. The Traffic there and downtown has made entrance and exiting SanElijo Hills difficult and especially Unsafe, if there was a Fire in our community, more so, if this High Rise Condominium Complex was allowed to be built.

I hope the SanMarcos Planning Committee takes this seriously and Denies its construction.

Thank you,  
Stewart Young
