## SOCCEr / FOOTBALL TURF MAINTENANCE

***Please assist us in making your game fields safe!!***

***Inform your coaches of the following procedures:***

- Replace all semi-permanent and permanent goals with portable ones and put in place only on game days.
- Allow no practice in goal areas.
- Only practice cross-widths across game fields.
- If goals are not removable, paint “NO PRACTICE IN GOAL AREA” on crossbar.
- Move goals forward and back or side to side to help relieve wear in goal area every two weeks.
- Move touch lines from inside to further outside to help prevent wear along the lines.
- “Dot” all field corners after shifting them to save time and not have to re-measure them.
- Adhere to all field closed signs put out by the Parks Department or City Park Caretakers.
- Do not allow any games on fields that are wet to be played on.
- Allow and plan for the “Field Closed” periods for rest/renovation/recovery of turf.
- Shut down all unnecessary lights, which encourage “walk-on” night play.
- Completely remove all soccer goals & football goalposts during each off-season.

# **CITY / JOINT USE FIELD CLOSED POLICY**

SPORTS FIELDS MAY BE CLOSED AT THE DISCRETION OF PUBLIC WORKS OR PARKS & RECREATION DEPARTMENT OR THEIR DESIGNATED REPRESENTATIVES. CLOSURES ARE KEPT TO A MINIMUM WHEN FIELDS REMAIN IN PLAYABLE CONDITION. PRIORITY IS GIVEN TO MAINTENANCE NEEDS, REST AND RENOVATION PERIODS, AND SUSTAINABILITY FOR ALL CITY OF SAN MARCOS SHARED ATHLETIC FIELDS. THE CITY/JOINT USE MAY CLOSE FIELDS FOR ANY OF THE FOLLOWING:

- When the City engages in work involving any of the fields.
- When the health and safety of participants are threatened due to impending conditions, including but not limited to: inclement weather, over irrigation, muddy or wet conditions. etc.
- When use could cause excess damage to fields if played on.

**ALL GROUPS AGREE TO POSTPONE ALL PRACTICE AND OR GAMES WHEN “FIELD CLOSED” SIGNS ARE POSTED.**

## **CRITERIA USED TO DETERMINE PLAYABILITY:**

City staff will inspect all city athletic fields and determine the playability of those athletic fields using the following criteria:

### **Baseball and Softball In-Fields:**

- Staff will step onto the playing surface to determine moisture content. If his / her foot sinks into the topsoil at least 1/2 ", the field will be deemed unplayable.

### **Multi-Purpose / Baseball & Softball Outfields-Turf:**

- To determine the playability of turf areas such as soccer, football, and baseball/softball outfield areas, city staff will walk the fields looking for saturated or areas of pooling water. Public Works will rely on measurable data and metrics when deciding which fields need to remain closed and hope this helps get fields open sooner if possible and provide reasoning to the field users if they need to remain closed.
